

## ISR-WHO World TB Day 2021 scientific symposium

**Title:** *Systematic screening for TB and the role of chest radiography*

**Date & Time:** Tuesday 23 March 2021, 17h00-19h00 Central European Time

**Organizers:** International Society of Radiology (ISR), jointly with World Health Organization (WHO)

**Webinar link:** <https://register.gotowebinar.com/register/4890204821927395855>

**Target:** clinicians; public health practitioners; radiologists; radiographers; other professionals

**Chairs:** Pr Guy Frija (ISR), Dr Maria del Rosario Perez (WHO)

<b>Topic</b>	<b>Speaker</b>	<b>Time (mins)</b>
Introduction & welcome	Dr Tereza Kasaeva, Director, WHO/ Global TB Programme	5
<b><i>Setting the scene: TB screening and chest radiography</i></b>		
New WHO guidance on TB screening & tools to support implementation	Dr Cecily Miller, WHO Global TB Programme	15
Chest radiography and other imaging to end TB: potential and global needs	Pr Guy Marks, International Union Against Tuberculosis and Lung Disease (UNION)	15
Computer-assisted detection of TB: state of the technology & evidence	Dr Morten Ruhwald, Foundation for Innovative New Diagnostics (FIND)	15
Q&A	Chairs	10
<b><i>Panel discussion: key challenges that chest radiography and new tools can help tackle</i></b> (moderated by Dr Dennis Falzon, WHO Global TB Programme)		
Regional and national perspectives	Dr Omolola M Atalabi, Nigeria (University of Ibadan) Dr Tarek El Diasty, Egypt (African Society of Radiology/ISR) Dr Hemant Patel, India (Indian Radiological & Imaging Association/ISR) Dr Ryan Ramtahaling, Suriname (Academic Hospital, Paramaribo)	25
Perspective from professional bodies	Dr Simon Tiberi, European Respiratory Society (ERS) Dr Payam Nahid, American Thoracic Society (ATS) Dr Sifrash Gelaw, International Organization on Migration (IOM)	15
Q&A and moderated discussion	Chairs	15
Closing remarks	Dr Renato Mendonça, President, ISR	5
